

NurClock User Manual

Language: English

For more languages scan the QR code, or
visit www.nurclock.com/manuals

In your box

1. Power supply

The power supply comes in two easy-to-assemble pieces. It powers the NurClock monitor directly from the mains.

2. NurClock Main Unit

The NurClock Main Unit.

3. User Manual

This user manual document.

4 Easy Steps To Setup

1. Choose Your Language

Select your preferred language: English, العربية (Arabic), or اردو (Urdu).

This will personalise your experience and make setup easier..

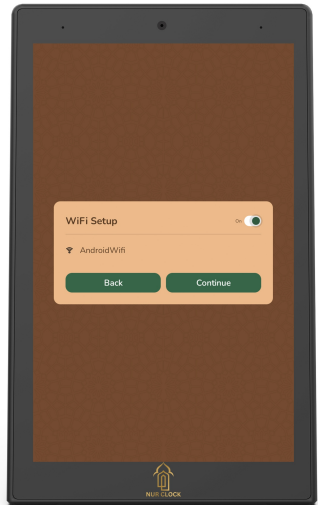

2. Connect to Wi-Fi

Make sure your device is connected to the internet:

- Turn on Wi-Fi
- Choose your home network
- Enter the password to connect

(You can also continue without Wi-Fi if needed, But some features might not be available.)

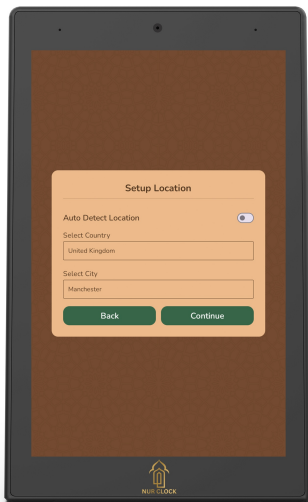

3. Select Your Location

First, choose your country from a scrollable list.

Then, search for and select your city manually, or choose from the predefined list if there's no internet connection.

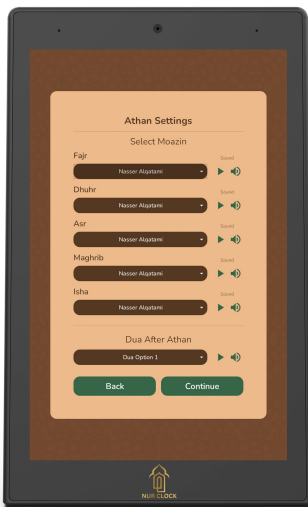

This sets accurate prayer times based on your location.

4. Set Athan & Dua Preferences

- Choose your preferred Moazin (caller to prayer) for each of the 5 daily prayers.
- Enable or disable the Athan call for each prayer individually.
- Enable or disable the Dua after Athan, and select your preferred Dua recitation.

You can fine-tune prayer time calculations later in the Settings screen.

NurClock Athan Screen Guide

NurClock Settings Screen Guide

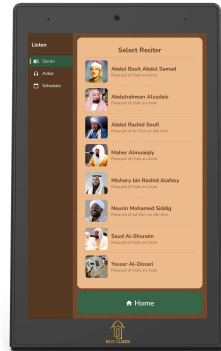

The Settings Screen in NurClock allows you to customise how the app behaves and looks. From adjusting time format and location to fine-tuning prayer calculations and Athan preferences, each section gives you full control over your experience.

- Scheduled items open the relevant tab automatically.

Regulatory Information

FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

CE Compliance

This product meets the requirements of applicable EU directives and bears the CE marking. The EU Declaration of Conformity is available upon request.

Waste and Disposal

Please dispose of this device responsibly. Do not discard with household waste. This product should be recycled in accordance with local regulations for electronic waste. By recycling, you help protect the environment and support sustainable use of resources.
